

DESIGN HOK

Mechanical Design & Engineering Solutions

Turning Your Ideas into Thoughtfully Engineered Designs

Who We Are

Design HOK is a mechanical design company specializing in product development, CAD modeling, engineering drawings, and manufacturing support.

We provide advanced mechanical design solutions for the aerospace, aviation, automotive, industrial equipment, energy, and manufacturing sectors.

Our Mission

To deliver innovative, accurate, and cost effective mechanical design solutions that help clients accelerate product development and improve engineering efficiency.

Our Vision

To become a trusted engineering partner recognized for quality, innovation, and technical excellence.

Our Services

Mechanical Design Services

3D CAD Modeling:

- Part Modeling
- Assembly Design
- Concept Development
- Design Reviews

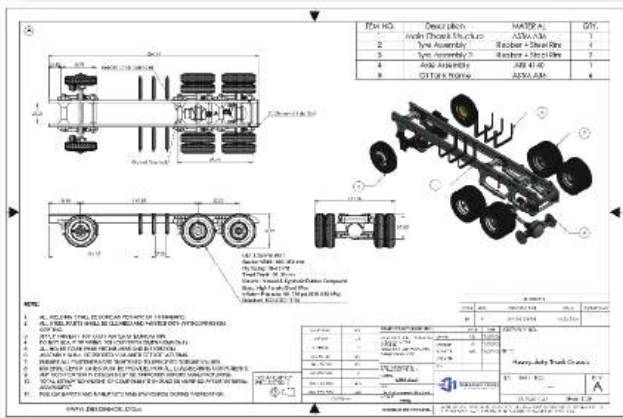

Product Design & Development

- Product Concept Creation
- Design Optimization
- Prototype Support
- Manufacturing Documentation

Engineering Drawings

- Production Drawings
- Assembly Drawings
- Detail Drawings
- GD&T Documentation

Design Validation

- Design Reviews
- Performance Evaluation
- Design Improvement Recommendations

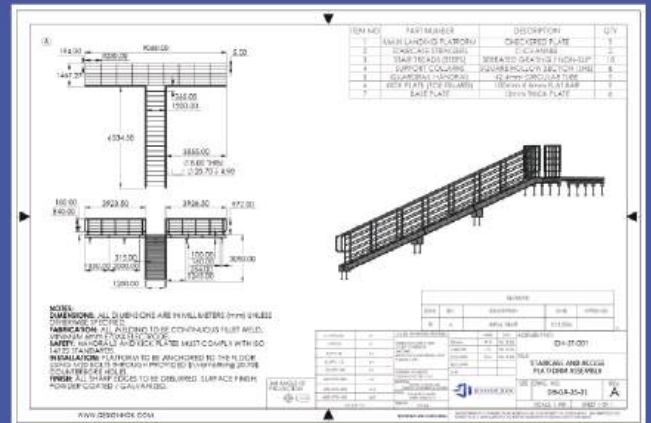

Industries We Serve

- Industrial Equipment
- Automotive
- Oil & Gas
- Manufacturing
- Aviations Manufacturing
- Space & Technology
- Robotics

Our Expertise Includes

- Sheet Metal Design
- Weldment Design
- Machine Design
- Mechanical Drafting

Our Clients

**Precision
Glass**

Reach Out

We're here to answer your questions and help you every step of the way.
We respond to all emails 24/7.
